

What is the First-Year Onboarding Programme?

The First-Year Onboarding Programme is a comprehensive support system tailored for all incoming students. It covers everything from academic orientation to social integration, ensuring you feel welcomed and prepared as you begin your journey at Eduvos.

Key Components of the Program

- **Technology and Systems Training**
Receive personalised guidance on navigating the Eduvos student portal, learning management system (myLMS), and other digital tools to help you manage your academic life, submit assignments, and access learning materials.
- **Academic Orientation**
Learn the ins and outs of Eduvos academic structure. You'll be introduced to your faculty, assessment information, and the resources available to support your studies, including libraries, online platforms, and student advisors.
- **Wellness Ambassadors Programme**
This programme is designed to promote wellness amongst the student body on campuses. The role of the wellness ambassadors is to collaborate with the wellness educators and the different student societies on campus to, promote & host wellness event/campaigns, advocate for mental health
- **Social Integration and Networking**
Tertiary is also about building connections. Our onboarding programme includes social activities, clubs, and events where you can meet your peers, make friends, and get involved in campus life.

Why It Matters

Tertiary Education can feel overwhelming, but the Eduvos First-Year Onboarding Programme ensures you have a strong foundation to build upon. By engaging with this programme, you will:

- Feel more confident in managing your academic responsibilities.
- Develop the skills necessary to balance your time and workload.
- Build a network of friends, peers, and mentors to support you throughout your studies.
- Gain a better understanding of the Eduvos environment and your role in it.

The First-Year Onboarding Programme is your guide to a successful and enjoyable first year at Eduvos. Each week, students will have a useful resource to support them through the block. This will range topics and activities that discuss how to access study material. Understanding the Flipped classroom approach, study skill resources, viewing assessment results and preparing for exams. At Eduvos, we're here to support you every step of the way, ensuring that your transition is as smooth and enriching as possible.
